	4.	One observation tower is being built at Tahoshangshan in Chinchou,	25)
	5.	Outside of Liuchiatum (122-39, 39-54) is a hill seventy meters high, on which there is a fortress under guard. Ten 15 CM artillery pieces and fifteen trucks are there. (No other details given.)	
	6.	At the foot of this hill, facing Chinchou harbor, a permanent defense work, already twenty percent completed, is being built by the Soviets. It is 300 meters long and 100 meters wide. The work is being done by Chinese labor under Soviet supervision.	25X <sup>2</sup>
	7.	There are the ordinary (?) defense ditches at Tengshaho (122-01, 39-16).	25X
5X1	8.	Along the river banks near Shihho (121-52, 39-20) there are trenches five to seven fect deep and six feet wide. West of Shihho to the sea many dog patrols are being used. To the east there are three lines of barbed wire reaching to Pitzuwo (122-23, 39-25), where there is an ammunition dump. The wire barricades are eight feet high, with guarded gates placed at intervals and pill-boxes and trenches inside.	
25 <b>X</b> 1		Note: A map  shows an "anti-tank ditch" running from Shihho to Chengtzutuan (122-31, 39-31).	25X
